

James Miller

**Group Chief Technology Officer
TAFE - Tractors and Farm Equipment Ltd**

A Chartered Engineer and Fellow of the IMechE with over 20 years of experience in the automotive, agricultural, off highway, rail and defence industry sectors.

James joined TAFE in 2017 as Group CTO. Prior to this he was an Associate of Warwick Manufacturing Group (WMG) at the University of Warwick since 2006, working with clients in India to improve New Product and Technology Development processes, tools and techniques as well as advising on organisation structure to support successful delivery.

Previous product development and manufacturing experience was gained in a powertrain systems, electronics and vehicle environment with both OEM and Motorsport companies as well as with new technology companies specializing in the hybrid, electric and lightweight vehicles.
