

Mr. Pranav Manpuria  
Founder  
vDrone

Mr. Pranav Manpuria is the founder of vDrone, a company building drone technologies to help farmers improve crop yield.

Mr. Manpuria pursued a business administration degree from Illinois Tech, Chicago, before moving back to India to explore his entrepreneurial interests. He started vDrone in November of 2016 to help farmers with the power of data and technology. His goal is to bring drones and their benefits to farmers all over India.
